INDEX TO VOLUME 10

This index covers the issues for 1997, as follows: January–March, pages 1–54; April–June, pages 55–192; July–September, pages 193–254; and October–December, pages 255–326. Where necessary, the issue number is shown in parentheses before the page number.

Subjects

Adhesive capsulitis, clinical patterns of, 222
Aesthetics, in prosthesis design (guest editorial), 258
Aluminum foam strip(s), in splint for Dupuytren's release (practice forum), 312
American Society of Hand Therapists, future of (presidential address), 263
  1997 presidential address, 263
  20th Annual Meeting of, program summary of, 248
Analgesia, mechanisms of, 59
  non-pharmacologic, 183
  pharmacologic, 96
  physical agents in, 110
Anatomy, of carpal tunnel, 277
  of pain transmission, 64; 110
Applause, watercolor by Suzanne Greer, (4):insert

Brachial plexus irritation, scapular instability with, 35
Brachial plexus lesion(s), rehabilitation of, history of (guest editorial), 199
Braddom, R. L. (ed.), *Physical Medicine and Rehabilitation* (book review), 243

Capsulitis, adhesive, clinical patterns of, 222
Carpal tunnel, anatomy of, 277
Carpal tunnel release, pillar pain after, 277
Carpal tunnel syndrome, ligament lengthening in (abstract), 247
  pain mechanisms in, 130
  science and clinical treatment of (Nathalie Barr lecture), 14
Central nervous system, in pain transmission and control, 64; 86
Central slip injury(ies), dynamic extension-assist splinting for, 206
Cerebrovascular accident(s), neuromuscular stimulation-induced contraction to reduce edema of, 29
Chan, K. M. (ed.), *The Hand and Upper Extremity: Sports Injuries of the Hand and Upper Extremity* (book review), 243
Computer-assisted instruction, user experiences with, 41
Cost-containment policy(ies), problems of (Nathalie Barr lecture), 14
Cryotherapy, in pain management, 110
Cumulative trauma disorder(s), occupational therapy for (abstract), 246

Decision making, in pain management, 86
Diabetes, joint mobility in (abstract), 245
Distal joint inflammation with proximal injury, science and clinical treatment of (Nathalie Barr lecture), 14
Double-crush mechanism, 151
Drug(s), in pain management, 96; 110
Drug delivery, transdermal, 110
Dupuytren's contracture, science and clinical treatment of (Nathalie Barr lecture), 14
Dupuytren's disease, overview of (ASHT invitational lecture), 8
Dupuytren's syndrome, release of, static progressive splint for (practice forum), 312
Dynamic splint(s), *see under* Splint(s); Splinting

Edema, neuromuscular stimulation-induced contraction to reduce, 29
Elbow position(s), in lateral epicondylitis, grip force and, 229
Electroanalgesia, in pain management, 110
Electromyography, of wrist extensors, wrist orthosis effect on, 283
Endoscopic carpal tunnel release, pillar pain after, 277
Epicondyle(s), painful conditions of (abstract), 245
Ethics, healthcare reform and (Nathalie Barr lecture), 14
Extension tube(s), neoprene, 213
Extensor(s), wrist, EMG of with wrist orthoses, 283
Extensor carpi radialis brevis, EMG of with wrist orthoses, 283
Extensor indicis proprius, transfer to restore EPL function (practice forum), 48
Extensor pollicis longus, EIP transfer to restore function of (practice forum), 48
Extensor tendon injury(ies), zone III, dynamic extension-assist splinting for, 206

Finger extension tube(s), 213
Flexion contracture(s), neoprene tube finger-extension splint for, 213
Flexor tendon repair(s), active tension following, science and clinical management for (Nathalie Barr lecture), 14
Force–time relationship(s), of sensory testing instruments, 297
Fracture(s), of distal radius, therapy expectations with, 269
Function, restoration of (practice forum), 48

Grip force, in lateral epicondylitis, 229

Hand in art, 4; 196; 268
Hand therapist(s), healthcare reform and (Nathalie Barr lecture), 14
Hand therapy, trailblazers in (editorial), 197
Handedness, definition of, 314
Hand-held instrument(s), force–time relationship factor in, 297
Healthcare reform, ASHT adaptation to (presidential address), 263
  problems of (Nathalie Barr lecture), 14
Heating agent(s), in pain management, 110
Henderson, A., and Pehoski, C. (eds.), *Hand Function in the Child: Foundations for Remediation* (book review), 50
History, of hand therapists (editorial), 197
  of hand therapy (guest editorial), 199
Human performance(s), in instrument reliability testing, 46
Hyperalgesia, neural basis of, 78

Instrument(s), reliability testing of, human performance in, 46
Instrument design, force–time relationship in, 297
Iontophoresis, 110
Isometric wrist extension torque, with LIDO WorkSET, 290

Joint(s), distal inflammation of with proximal injury, science and clinical treatment of (Nathalie Barr lecture), 14
  mobility of, in diabetes (abstract), 245
Journal of Hand Therapy, authors' and editors' contributions to (editorial), 255
  tenth anniversary of (editorial), 7

Lateral epicondylitis, grip force in, 229
  pain mechanisms in, 130
Learning hypothesis, for RSI origin, 160
LIDO WorkSET, reliability of isometric wrist extension torque with, 290

Managed care, ASHT adaptation to (presidential address), 262
  problems of (Nathalie Barr lecture), 14
Measurement(s), of isometric wrist torque by LIDO WorkSET, 290

Michlovitz, S. L., *Thermal Agents in Rehabilitation*, 3rd ed. (book review), 315
Millender, Lewis H., in memoriam, 5
Motor learning, in pain management, 160
Muscle(s), in myofascial pain, 130
Musician(s), musculoskeletal misuse among string players (abstract), 319
Myofascial pain syndrome(s), 130

Neck muscle(s), in myofascial pain syndromes, 130
Nerve compression, from repetitive use, 151; 160
  from static postures, 151
Nerve entrapment, management of, 151
Neural provocation test(s), 122; 151
Neurogenic disorder(s), physical evaluation of, 122
Neuromuscular stimulation-induced contraction, in edema reduction, 29
Neuron(s), of pain transmission, 64; 137
Neuropathic pain, management of, 96
Neuropathy(ies), compression, and scapular instability, 35
Neuroprosthesis(es), implanted, upper-extremity (abstract), 318
New-order medicine, problems of (Nathalie Barr lecture), 14
Nociceptor(s), in pain, 78; 86

Occupational therapy, for cumulative trauma disorders (abstract), 246
Orthotic(s), wrist, EMG of wrist extensors with use of, 283
Otoform lining(s), in clamshell digit splint (practice forum), 311

Pain, CNS in transmission of, 64; 86
  control of, CNS in, 64; 86
  cortical restructuring in process of, 160
  electroanalgesia in management of, 110
  of epicondyles (abstract), 245
  introduction to special issue on, 57
  learning in process of, 160
  management of, review of, 175
  mechanisms of, 59; 86
  neuropathic, management of, 96
  nociceptors in, 78; 86
  patterns of, 86
  perception of, peripheral nervous system in, 78; 86
  perception of, psychology of, 183
  peripheral nervous system evaluation in, 122
  peripheral nervous system in, 78; 86; 137
  pharmacologic management of, 96; 110
  physical agents in modulation of, 110
  physiologic aspects of, 59; 86
  pillar, after carpal tunnel release, 277
  psychology of, 183
  psychosomatic aspects of, 59; 86; 96
  referred, 64
  from repetitive-use nerve compression, 151; 160
  shoulder, 130
  from static-posture nerve compression, 151
  TENS in management of, 110
  thermal agents in management of, 110
  treatment of, non-pharmacologic, 183
  trigger points for, 130
Pain mechanism(s), clinical biology of, 86
Pain syndrome(s), myofascial, 130
Pain transmission neuron(s), in spinal cord, 64; 137
Peripheral nerve ending(s), in pain, 59; 86
Peripheral nervous system, in pain, 78; 86; 137
  physical evaluation of, 122
Phonophoresis, 110
Pillar pain, after carpal tunnel release, 277
Posture(s), pain associated with, 151
Prosthesis(es), development of (guest editorial), 258
Prosthesis design, aesthetics in (guest editorial), 258
Provocation test(s), of neural tissue, 122
Psychology, of pain perception, 59; 86; 96; 183
Purtilo, R., and Haddad, A., *Health Professional and Patient Interaction* (book review), 316

Radius(i), fractures of, distal, course of, 269
  fractures of, distal, therapy expectations with, 269
Range(s) of motion, normal, in men (abstract), 53
Ranney, D. (ed.), *Chronic Musculoskeletal Injuries in the Workplace* (book review), 315
Reflex sympathetic dystrophy, causes of, 137
  diagnosis of, 137
  treatment of, 137
Rehabilitation, history of (guest editorial), 199
Reliability testing, of instruments, human performance in, 46
Repetition, neural consequences of, 160
Repetitive strain injury(ies), learning hypothesis for origin of, 160
  rehabilitation for, 160
Repetitive use, pain from nerve compression by, 151; 160
Research, healthcare reform effects on (Nathalie Barr lecture), 14
Rockwood, C. A., et al. (eds.), *Fractures in Adults*, 4th ed., vols. 1 and 2 (book review), 51
Rotterdam splint (practice forum), 240

Sanders, R. J., and Haug, C. E., *Thoracic Outlet Syndrome: A Common Sequela of Neck Injuries* (book review), 317
Scapular instability, with brachial plexus irritation, 35
Semmes–Weinstein test, 24
Sensory function, assessment of, 24
Sensory reeducation program, five-stage, 232
Sensory testing instrument(s), force–time relationship factor in, 297
Shoulder muscle(s), in myofascial pain syndromes, 130
Shoulder pain, 130
Skin sensitivity, testing for, 24
Spinal cord, pain-transmission neurons in, 64; 137
Splint(s), clamshell digit, with Otoform lining (practice forum), 311
  for Dupuytren's release (practice forum), 312
  dynamic extension (practice forum), 240
  neoprene tube finger-extension, 213
  Rotterdam (practice forum), 240
  training, for EIP to EPL transfer (practice forum), 48
  tube, neoprene, for finger extension, 213
Splinting, for Dupuytren's disease (ASHT invitational lecture), 8
  dynamic extension-assist, of acute central slip lacerations, 206
  history of (guest editorial), 199
Static posture(s), pain from nerve compression by, 151
Stigliani, J., *The Computer User's Survival Guide* (book review), 243
String players, musculoskeletal misuse among (abstract), 319
Sympathetic dystrophy, reflex, 137

Tactile gnosis, testing for, 24
Tactile sensation, testing for, force–time relationship factor in, 297
Tendon(s), *see also* individual tendon names
Tendon injury(ies), extensor, dynamic extension-assist splinting for, 206
Tendon repair(s), flexor, active tension following, science and clinical management for (Nathalie Barr lecture), 14
Tennis elbow, *see* Lateral epicondylitis
Test(s), *see also* individual test names
Testing instrument(s), force–time relationship factor in, 297
Testing method(s), human performance as, 46
Testing stimuli, variability of, 297
Texture discrimination test, 24
Therapy(ies), expectations of with distal radius fractures, 269
Thermal agent(s), in pain management, 110
Thermoplastic splint(s), with Otoform lining (practice forum), 311
Torque, isometric wrist extension, with LIDO WorkSET, 290
Touch–pressure threshold testing, and sensory discrimination, 24
Transcutaneous electrical nerve stimulation, in pain management, 110
Transdermal patch(es), in pain management, 110
Trigger point(s), in myofascial pain syndromes, 130
Tube finger-extension splint, 213
Tubiana, R., Thomine, J.-M., and Mackin, E. (eds.), *Examination of the Hand and Wrist* (book review), 50

Ultrasound, in pain management, 110
Upper-extremity neuropathic pain, management of, 96

Walker, J. M., and Helewa, A., *Physical Therapy and Arthritis* (book review), 244
Wrist(s), strengthening method for (practice forum), 48
Wrist extension torque, isometric, with LIDO WorkSET, 290
Wrist extensor(s), EMG of with wrist orthoses, 283
Wrist orthosis(es), EMG of wrist extensors with use of, 283

Zachazewski, J., Magee, D. J., and Quillen, W. S. (eds.), *Athletic Injuries and Rehabilitation* (book review), 242
